

A subscription that offers timber expertise, knowledge and advice.

Cost-effective access to expert answers and advice on all aspects of timber selection, use, finishing and maintenance.

If you're working with timber and need more technical knowledge, a Timber Queensland technical subscription makes the right selection, specification and use of timber and timber products so much easier. Stay up to date with new timber product developments.

Take advantage of decades of knowledge within Timber Queensland's experienced technical support team to:

- Get expert technical advice via email and phone on timber application and use, including how to interpret Australian Standards.
- Save on courses, events and technical webinars with your member discount exploring topics like durability, connections and tie downs, framing and interpreting codes and regulations.
- Instant access to technical data sheets, timber design guides, and industry best practices in our members-only online resource centre.
- Get the monthly Technical Update e-Bulletin for the latest insights into timber application and use in the built environment.
- Boost credibility with clients and showcase your commitment to professional excellence with the Timber Queensland member logo.

Who should join

- Architects
- Builders
- Building Designers
- Certifiers
- Engineers
- Specifiers

Got questions about timber? Our expert technical team are here to help members!

Application for Subscription
